

Task17

Write a nodejs program that sends an email with an image as the content and another image as the background of the email.

Code:

```
// HOW to send email via node js'
const nodemailer = require('nodemailer');
var fs=require('fs');

require.extensions['.html'] = function (module, filename) {
    module.exports = fs.readFileSync(filename, 'utf8');
};

var data = require('./index-17.html'); // path to your HTML template

let mailTransporter = nodemailer.createTransport({
    service:'gmail',
    auth:{
        user: 'skapaliya@gmail.com',
        pass: '----'
    }
});

var maillist = [
    'skapaliya@gmail.com',
    'sarthak.kce20@sot.pdpu.ac.in',
];

let mailDetails = {
    from: 'skapaliya@gmail.com',
    to:maillist,
    subject:'Sent using nodejs with attachments',
    html:data,
};

mailTransporter.sendMail(mailDetails, function(err,info){
    if (err) {
```

20BCP072
Sarthak Kapaliya

```
        console.log("Error has been occurred");  
    }  
    else{  
        console.log("Name : Sarthak Kapaliya");  
        console.log("Roll No : 20BCP072");  
        console.log("Email has been sent successfully"+info.response);  
    }  
    })
```

Output

```
PS F:\IMP DOCUMENT\College material\SEM#6\Basic-Web-Development-Projects\Advance Web Technology\Session-1\exp8> node .\node_email-  
Name : Sarthak Kapaliya  
Roll No : 20BCP072  
Email has been sent successfully250 2.0.0 OK 1674149666 o189-20020a62cdc6000000b0058baa6586f3sm13311391pfg.135 - gsmtip
